

THE LINDBERGH CASE LIN-FELDER JUDGE

North Rhodesia Governor's Wife, Plane, Missing

LIVINGSTONE, Northern Rhodesia, March 1.—Lady Margaret Young, wife of Major Sir Hubert Young, governor of Northern Rhodesia, was missing today in an airplane flight over African jungle country teeming with lions, rhinoceroses and other wild animals.

Lady Margaret, who was just recovering from an attack of malaria, was accompanied on the air trip by a government physician.

The plane in which she and the physician, Dr. A. Kirby, were traveling, took off from here yesterday morning for a flight to Lusaka, where Lady Margaret was to have a check-up. She had left a hospital only a short time before.

The plane was last seen near Katima Mulilo, about 100 miles from Livingstone, where it was reported to have crashed. It was believed to be missing.

Two planes unsuccessfully surveyed the area yesterday and yet continued the search today. A special train was dispatched from Livingstone and proceeded slowly along the line to Katima Mulilo.

A sharp lookout was maintained for the missing plane.

One plane was seen near Katima Mulilo, but it was not the missing plane.

The search for the missing plane is continuing today.

Just In Case Italy Needs Help

A company of Italian Black Shirts, their overseas packs on their backs, their rifles resting on their shoulders, march through Rome to the railway station for the first part of their journey to Ethiopia, Africa, near the scene of the recent Italian military operations.

Although recent developments between the two countries would indicate a peaceful settlement of difficulties, Mussolini is maintaining a huge army on the Ethiopian border in the event of hostilities.

ANSWER: IT GETS SIMPLY

GERMAN CONSULS BURNED FOR NEW MOTIVE IN CRIME

BOSTON, March 1.—Government agents continued to maintain silence today in the face of published reports Lindbergh ransom money had come to light here in recent weeks.

Neither would United States department of justice representatives comment on reports that the German consul-general had received information kidnapping of the Lindbergh baby had been planned here and that a gang of at least four men was involved.

According to the report Baron Karl von Tippelskirch, the German consul, has forwarded his information to the German consul-general at New York. Two men, who the newspaper says furnished the information to the Baron, claim revenge for the ransom money.

Previous reports published here claimed more than \$200,000 of the ransom money has turned up in New England cities.

Case Officially Is Still Deep Mystery

NEW YORK, March 1.—Three years after the disappearance of the Lindbergh child, the mystery of the kidnapping is still as deep as ever.

Police of the world took up the search, and in the meantime New York state expended an estimated \$100,000 in the search for the child.

Police of the world took up the search, and in the meantime New York state expended an estimated \$100,000 in the search for the child.

STREET CARS TO LOAN BILL PASSAGE ASSURED

\$10,000,000 IN NEW PAPER CIRCULATING

Queen Mary Issue Goes Into Canada's Money Stream

By THOS. WALLING

OTTAWA, March 1.—More than two million new Dominion of Canada five dollar bills have been put into circulation since the Queen Mary issue was introduced into the money stream. At the end of November there were \$4,000,000 worth of Dominion five dollar bills in circulation. Now, the new issue has increased the circulation to \$10,000,000.

In December a steadily increased demand came from the chartered banks to the treasury for Dominion five dollar bills, and the Queen Mary issue which had not formerly had a very great circulation, began to flow into the money stream.

In December there were \$10,000,000 worth of Dominion fives in circulation. In January \$13,000,000 and in February \$15,000,000.

Treasury officials give two reasons for the increase. One is that they did not want to put out any of their own big silver coins, and the other is that they did not want to put out any small five dollar bills. The Queen Mary issue was therefore put into circulation.

The other reason is that the chartered banks are making use of the notes down to the five percent reduction they must put into effect when the Bank of Canada currency goes into operation.

Par convalesces have therefore of late included the new Queen Mary issue. The situation with respect to ones and twos is unchanged.

The Queen Mary fives will only have a short run, as they will be withdrawn after March 31 to be replaced by the new small fives of five dollars.

Save \$2,500,000 On C.N.R. Refund, States Meighen

OTTAWA, March 1.—The measure authorizing the refunding of Canadian National Railway securities, totaling almost \$2,000,000,000, was given second and third readings in the Senate. The issue is largely those callable by the government. It will be exercised at the option.

Should all be called "as would seem probable" and final arrangements be made on the basis of present rates, the refunding would be more than \$2,500,000, Mr. Meighen, Senate leader, said.

He was particularly particular of the securities involved. Only one obligation matured in 1935. This obligation matured on Feb. 15 and was paid by a short term loan at two per cent. Previous obligations maturing \$20,000,000, which matured last December, were refunded at a rate which saved the C.N.R. and therefore the government, more than \$2,000,000 a year. He said.

The Senate will meet again Tuesday.

Nazi Student As Trio Taken As Spies In Praha

PRAGA, Czechoslovakia, March 1.—Three German students, identified as a former president of the Nazi students organization at a Praha university were under arrest today, charged with espionage.

Secret police officers arrested a youth they identified as Fritz Kuhn, former president of the Nazi student organization, Wednesday afternoon.

After Kuhn's hearing they made a midnight search in the German students' organization headquarters and took the other two, whose names were withheld, to the police.

Police refused to give out details of the arrests or the charges, and the same court found the two and foreign newspapermen to publish the information because it is an espionage trial which is still pending.

New Post Offices In B. C. Area

OTTAWA, March 1.—A value of \$353,100 for public buildings in British Columbia was passed by the House of Commons last night. It included post offices at Chemainus, Creston, Holburn, Kelowna, Mission City and Port Moody.

Thomas Reid (Lib., New Westminster), and Earl Hanson (Lib., Skeena), asked Public Works Minister Hugh Stewart to consider new buildings at New Westminster and British Columbia. The minister said both proposals were impossible at present.

Archbishop On Fund Campaign

TORONTO, March 1.—Archbishop Hewitt, primate of the Church of England in Canada, will leave today for the United States. He will be accompanied by C. L. Foster of Toronto and they will deliver addresses in western Canadian cities and towns in the interests of the church's relief work.

COMMISSION'S RADIO PLAN ANNOUNCED

Million Dollar Scheme To Give Full Coverage, End Complaints

OTTAWA, March 1.—A construction program designed to give the national radio system complete coverage from coast to coast is contemplated by the Canadian radio commission. It was learned yesterday.

The program, if ratified, would entail erection of new stations or increasing the power of existing stations in Nova Scotia, Montreal district, Toronto district and over Northern Ontario, Saskatchewan and British Columbia.

Action on the plan has been delayed, it was said, owing to lack of necessary funds. The program could be carried out, it is claimed, for something under \$1,000,000. With it would be associated a plan to extend hours of national broadcasting.

KILL ALL COMPLAINTS

Execution of the commission's plan, it is contended, would overcome practically all difficulties and complaints now encountered in carrying on national radio in Canada.

The modern stations of reasonable power would be erected in various sections where coverage has been poor. The plan would also include the erection of such stations as, for example, in Quebec, a large part of Ontario, Saskatchewan, part of Alberta and practically all the populated part of British Columbia.

BUILD NEW STATIONS

Under the plan, new stations of national broadcast and new modern stations would be erected at points where most of the principal complaints have been received. It is said that while reports from listeners indicate increasing satisfaction with the national radio service, the service is injured by complaints arising out of poor reception conditions and inadequate coverage.

Commission plans regarding special reception and re-broadcasting of British programs were announced some time ago. The special short wave reception station at Ottawa on which these programs were received is expected to be in operation soon.

DUKE QUILTS ELUSIVE SHARK FOR GATORS

MONTGOMERY BAY, Jamaica, March 1.—Unusually as a shark hunter, the Duke of Kent has turned his attention to hunting alligators. So far he is still without success, but he is still hunting.

The Duke and his beautiful bride, Princess Marina, have been foiling enjoying the balmy weather of this Caribbean island since they arrived two weeks ago. From their honeymoon bungalow, the Duke and his wife have set out on picnics, motor hours and hikes, and have travelled everywhere without success.

Inviting friends to a picnic on each beach one night this week, the royal couple cooked and served all the food for their guests.

Condemned, He Elects Rope To Life In Prison

REGINA, March 1.—Carl Poeta, a 27-year-old farmer of Manor, Sask., was to be hanged at Regina last night for the murder of his wife in the spring of 1934. He slew his wife with an axe after having invaded the home of his mother-in-law, where his wife was staying.

His lawyers, Sask., to accompany him.

He was convicted of the murder last fall. Efforts to have sentence of death commuted to life imprisonment were instituted at once by his counsel, H. J. McDaniel, Regina.

According to his counsel, he desired death rather than spend the rest of his natural life behind prison bars.

Women Injured In Rough Trip From Bermuda

BOSTON, March 1.—The Lady Soto, a Canadian National line ship, arrived in Boston yesterday with two passengers injured during a rough passage.

An ambulance waited at the dock to take Miss Alice V. McDonough of Boston, a housewife, who had been severely cut about the head when her car was crushed in a port-hole. Fourteen stitches were taken in her wounds by the ship surgeon, Mrs. William L. Fisher of Cambridge received cuts on her leg which required four stitches to close.

Pigs Is Pigs In Zimmerman

LONDON, Eng., March 1.—The Daily Herald today publishes a story from Zimmerman in which it claims that a record for pig production in one day on one farm has been set by a Somerset farm.

Four litters were sown on the farm in the last day, and almost simultaneously. In the first litter twenty-four piglets were born; in the second, twenty-four; in the third, twenty-four; and in the fourth, twenty-four. The fourth litter was born at the same time as the first.

Wife Freed While Kidnap Suspect Husband Sought

While the nation-wide search went on for her husband, alleged kidnapper of Mrs. Alice Stott, "the most sought man in the country," Mrs. Frances Robinson, 27, was freed from under \$5,000 bail for her husband's arrest in the United States. Happy to see temporary freedom until her trial March 15, Mrs. Robinson is shown, right, as Miss Catherine Wilson, jail matron, helped her with her packing.

Mrs. Frances Robinson, 27, was freed from under \$5,000 bail for her husband's arrest in the United States.

SPENDING BY GOVERNMENT ARKS ELLIOTT

Liberal Ridings Entirely Passed Up In Ottawa Program

By THOS. WALLING

OTTAWA, March 1.—Hon. J. C. Elliott, former minister of public works, launched a scathing indictment last night against the "present government's manipulation of the money voted by parliament for public works, and the expenditure of public money on military works when there was on great a need for other buildings."

Mr. Elliott cited the meagre \$200,000 cited this year for public buildings in Ottawa and then read the list which showed many of the best buildings for military use.

PASS LIBERAL RIDINGS

Dealing with the expenditures in the West, Mr. Elliott pointed out that the government had not provided a single cent for any public building in the west which were represented by Liberal members.

The former minister pointed out that the government had not provided a single cent for any public building in the west which were represented by Liberal members.

PROTEST BLANKET VOTE

This blanket vote practice was strongly objected to by Mr. Elliott, Under the Public Works Construction Act two items of \$2,000,000 each were included and the details of these expenditures were covered only by order in council.

PARLIAMENT DAY-BY-DAY

Senate will take up amendments to Farmers' Creditors Arrangement Act. Estimates may be considered.

Senate considered and gave final reading to government bill authorizing refunding of approximately \$200,000,000 Canadian National securities.

House of Commons passed through committee stage government amendments to Farm Loan Act designed to provide farmers with increased credit facilities at lower interest rates.

Passed estimates of public works department aggregating approximately \$15,000,000.

TWO MORE CARS STOLEN IN CITY

During efforts of police to make captures and end the epidemic of car thefts which in the past 10 days has resulted in 14 citizens losing their autos, joy-riding car thieves got away with two more automobiles Thursday night.

A Duquesne of 1930 35 street, registered his auto stolen shortly after 10 p.m. Thursday. Police found it abandoned in a lane near the corner of 10th street and avenue early Friday morning. It was undamaged.

Still unrecovered is the car of R. B. Brooks, 1033 9th avenue, it, taken between 6:30 and 9 p.m. Thursday from its parking place in front of the Brooks' home. A silver 1930 model Marquette, it carries license plate 34-002.

Price Waxes Is Home Again

LONDON, March 1.—A substantial price of Waxes returned late Thursday from a holiday in Austria and dashed from the station to a hurry for a dinner engagement. He left by the platform instead of through the passageway reserved for distinguished persons in order to save time.

DeSoto, Holder of Twenty-nine World Records, A NEW AERO-DYNAMIC CAR AT POPULAR PRICES

DeSoto Airstream Invades Lower-price Field

Brilliant New Airflow on Display. See these Aero-Dynamic Cars.

THIS YEAR DeSoto does the unexpected again... introduces not one new car... but two! First, there's a new Airstream DeSoto at Popular Prices.

And secondly, the famous Airflow... the car that shattered 29 A. A. Conter Board records for Speed last year... now, brilliantly restyled!

IT WAS TIME for someone to build a popular-priced Streamliner car. And that's just what DeSoto has done.

The new Airstream DeSoto was designed by the same engineers who built the record-breaking Airflow DeSoto. It embodies many of the principles and features of Airflow design.

It has a 95-horsepower engine... with amazing performance and stamina. It gives you a new kind of ride... due to application of the principle of weight distribution embodied in the Airflow, independent front-wheel suspension, and new tapered leaf springs in the rear.

Beautiful All-Steel Bodies. Frame and body of the new Airstream DeSoto are virtually one unit... floors are 3/4 inches lower than usual... even the seats are considerably wider.

DeSoto Airstream Delivered in Edmonton \$1315 to \$4,400

BOTH CARS OFFER: Improved Performance... the Airflow, 100 horsepower; the Airstream, 95 horsepower... plus sensational new economy. New-type Tapered Leaf Springs. Improved Hydraulic Brakes. All-Steel Bodies, greater safety. Synchronic Transmission... silent, efficient gear-shifting. Time payments to fit your budget. Ask for official " Chrysler Motors - Commercial Credit Plan."

Both front and rear doors open from the center post... a feature that was unanimously approved by the owners of last year's Airflow DeSoto.

We can't describe the new Airflow model. You will have to see it for yourself.

Drive this car... experience yourself the thrill of handling this new kind of automobile... enjoy for the first time the famous Airflow ride.

Both new DeSotos are now on display. See them at two auto-shows in style leaders today. This year there's only one question... "Which DeSoto will it be?"

CHOW MEIN

One pound chicken meat cut in strips, two tablespoons fat, one cup water or most stock, one tablespoon cornstarch, two tablespoons fat, one onion, cut lengthwise in narrow strips, one bunch celery, one-half green pepper, one teaspoon salt, one-fourth teaspoon pepper, so, so sauce. The chicken meat may or may not be cooked. Cut it in fine strips, saute in fat for five minutes. Add meat stock or water which has been blended with cornstarch. Simmer gently until meat is tender. Melt second amount of fat in another saucepan. Add onion, cook three minutes, add celery cut in fine strips about two inches long, and mushrooms, sliced. Cook three minutes, stirring constantly. Combine mixture, reheat well and pour over fried noodles.

Minute Make-Ups

By V. V.

The hardest form of eye shadow now comes in lipstick form so that you may stroke it on as easily as a lipstick when you dive from an afternoon tea to a cocktail hour. The newest eye shadow should be used only under artificial light.

**U.F.A. MEMBER
FLAYS SCHEME
FOR SETTLERS**

**"Disgrace to Civilization"
Declares Fiery Deputy
Speaker**

Violent, vigorous, protest was voiced in the legislature on Thursday night by Milton C. McKee, U.F.A. Lac Ste. Anne and Deputy Speaker, against a continuation of the Dominion-provincial-municipal land settlement scheme under which farm families are rehabilitated on the land with a total grant of \$600.

"Is this scheme the greatest disgrace in civilization," he declared, "I decline to say. But I do say that it is a disgrace to the type of settler whom it would encourage to go out and make good, but the average settler who before he starts. Neither this nor any other government should encourage men with wives and families to go back on the land and try to make a living."

FOREDOOM
A man is foredoomed to one of the worst kinds of living on the land, rather than the type of settler who could make a success of it. That is because both he and his forebears were born with axes in their hands and his forebears with two. And you would think the wife probably doing the work of the husband."

He said in the past that this scheme has been a success. But it has not. How can it be successful on such a basis when the clearing cost from \$50 to \$70 an acre, and the settler is left with a debt behind and slowly led to despair. "I would advise the government to discontinue this scheme and to encourage homesteading except in certain areas where prospecting is being done. Mr. McKee's attack on the scheme came when the house was discussing a resolution moved by George MacLachlan, U.F.A. member, and an amendment moved by Joseph M. Dechene, Liberal, S. P. A.

IS CARRIED
The amendment was defeated by 15. In the division Liberals and Conservatives voted against the U.F.A. There was neither a Labor nor Independent vote in the house when the vote was taken.

There was no division on the question, which was carried by a 15-15 tie. The U.F.A. is of the opinion that having regard to relief conditions in the home provinces, the government should not be so hasty in passing homestead regulations so that they might not cause the loss of jobs on new settlers nor discharge prospective settlers from taking up land and that the policy was now in effect in improvement districts in the east where they have to work out a portion of their taxes by doing the work of the province so that they should not be asked to pay any more taxes except school taxes for their first three years on the land."

He thought land inspectors visiting areas of the province should have full information on the district before they go to the field. There was much land that had been cleared which was being thrown open to homesteading. There was great delay in the department in having inspectors visit areas. He knew of cases where two years had elapsed between the time an application had been made for an inspector to come prior to a patent being granted and the actual arrival of the inspector. He thought every possible assistance should be given to homesteaders.

MINISTER SPEAKS
Hon. Hugh W. Allen, minister of lands and mines, declined to write to the amendment because there was some misunderstanding as to what he had said. He thought the amendment was vague. At the time the Provincial Lands act was passed it was decided that homesteading should be restricted and the limited number still available retained for the peace of Alberta. There were no homesteads left within reasonable distance of transportation.

If Alberta had permitted unrestricted homesteading in the Peace River block at that time had to go on. At the time the act was passed settlement was closed on areas remote from transportation facilities and a scientific soil survey was instituted with a view to finding out what unsettled areas were best suited to future settlement.

ONLY ONE PAYS
Only one person had paid the full cost of \$60 on his homestead since the act was passed. Others had paid more or less. The payment of \$10, Saskatchewan had paid and it was estimated that others had paid as well. So far, he claimed, not a total thing for \$60 a year worked any hardship on the people. A.

**Taft's Niece
Starting on
Europe Tour**

**CENSURE GOVT.
FOR COURTESY
INDIFFERENCE**

Continued from Page One
The house. It was the first time he had taken part in debate in this session. His motion was an amendment to the motion by the Hon. W. A. Nanton, Clarendon, the amendment being acceptable to Mr. Walker.

GIRoux ATTACKS
Mr. Giroux objected strongly to the government refusing adjustment of debate in order to give members an opportunity to read and consider the submitted motion of the Nanton-Clarendon members.

"These tactics of using the steamroller on important matters do not enhance co-operation," he charged. "I am in favor of a national marketing board provided it is properly created and administered and that in conjunction with the trade and commerce department."

"The interference of this government with the Dominion boards and have no confidence in them. U.F.A. political propaganda, through these pools or marketing boards has been the main reason why these pools were bankrupt."

"The just the conference and support of the majority of farmers. They took this government and along the better for the co-operative movement, the better for the farmer who does not wish political interference in his business."

"The debate started last night. The debate started last night. The effect of the deal were felt on both sides of the Atlantic and in other parts."

THE STORY
In support of this, he quoted evidence of newspapers carrying a story from Ottawa that the Dominion government had proposed to set up a Wheat Board. In order to make his motion without notice, the unanimous consent of the house was necessary. This was given.

His amended motion was that the house should express its opinion on what had been done and the proposed legislation to set up the board.

Before the two hours of debate had been concluded a wide range of subjects had been touched. Several amendments were introduced and either ruled out of order or defeated and two attempts to amend the motion were made.

An important amendment to the motion was made by Mr. Giroux. He moved that the motion be amended to read: "That the government be urged to make an accurate estimate of costs."

At present no homesteader was allowed to take a loan because he could not fulfill his financial qualifications. If, for instance, in order to make a loan, a man had to abstain himself from his land for a certain period.

He said that the department had been making a study of the problem of certain amount of permits to cut for people on relief and railways had been an arrangement with the railways that a certain number of permits would be given to the government and paid for.

"The government was ready to meet any requests for making things easier, to the extent possible. He denied that any government had improperly interfered in a specific case."

SHOULD BE STOPPED
Mr. Dechene, Conservative, Red Deer, thought that there was no necessity for further land settlement. He thought there had been sufficient already. Putting more land into the hands of the government would make a failure of things to come. He thought there had been too many settlers from the west and that the government should be stopped from doing so.

Mr. C. Smith, U.F.A. member, said it was essential that settlers should be given the right to work in the province and that the amount of taxes allowed to be worked out should not exceed 50 per cent. In addition, most of the farmers were not making a very good job of it. He found that there was a tendency for residents to take on more work than they could handle, and that a hardship on those who were working.

Capt. H. B. Dakin, Liberal, River, declared that while the homesteaders were being paid for their work, the government was not doing so. He thought that the government should be paid for their work, and that the government should be paid for their work.

He charged \$60 collected on an homestead was being granted was an imposition which was being imposed on the settlers. He thought that the government should be paid for their work, and that the government should be paid for their work.

**Grain Board
Pleases Premier**
"Extreme gratification" was expressed by Premier R. G. Bennett on the announcement of the Dominion wheat board. That is the successful termination of a campaign covering many years that we have waged in this about," he said. Formerly, the wheat board was a body of the main U.F.A. champion in the province, as a whole had passed many resolutions on the subject.

The provincial government would be required to implement any legislation that might be required to properly facilitate the working of the Act.

The earth's population is doubling about every 20 years. The rate, therefore, will be 2,000,000,000 people on earth before the year 2000 works any hardship on the people. A.

SAARBRÜCKEN, Germany, March 1.—The Saar Basin, taken from Germany by the Versailles Treaty 18 years ago, was officially returned to the French today in a frenzy of enthusiasm which reached a hysterical climax with the sudden arrival of Reichsbanner troops.

The Nazi dictator, making a sudden decision to come, flew from Berlin to share in the ceremony, carrying out the decision of the Reichstag expressed in last month's plebiscite, provided for when the Saar was placed under League of Nations and French rule in 1920.

Packed throngs, their jubilation unshared by downpours of rain, greeted the dictator with repeated "Heil's" and the Nazi salute.

SAARBRÜCKEN, March 1.—France and the League of Nations today give up control of the Saar basin to close one of the most hotly contested chapters of the Versailles treaty.

The "Hell's" French tricolor was hoisted down last night from over the administration of the Saar, and the French flag was hoisted over the territory, which took place at the very close of the day.

NOISY CELEBRATION
As the flag was removed, staff and gun salutes fell, and continued for one minute. Then, shrieking screams at the pithed joined the shouting in a shrill note of triumph. From the sea of faces many eyes were turned to the building, Nazi flags were thrust into the air, and the crowd began to cheer.

Because Saarbrücken voted overwhelmingly in last January's local election to remain French, the return to the Reich was a surprise. The Reich was a surprise.

BASE ON VOICE
Col. F. C. Jamieson, V.D. K. (Edmonton), suggested it would be advisable if the Board were based on a vote of the people. He took it that the real reason for the Board was an agreement to reduce production.

He agreed that the resolution could be carried, but that the government should obtain a copy of the Dominion legislation at the earliest possible moment. He moved an amendment to the resolution.

Frank R. Falconer, Liberal, Athabasca, felt there should be some time given to review the proposed legislation, and he moved an amendment to the resolution.

Rudolf H. H. U.F.A. member, thought it essential to maintain the high quality of Canadian wheat. He moved an amendment to the resolution.

Hon. George Howland, stated in moving the resolution that it was not that the resolution was approved by the house, but that it was not yet drafted. It was not yet drafted.

He was speaking of the people of the province had been asking for years. Copies of the legislation would be made at the earliest possible moment. The people today needed to have a copy of the legislation.

CAUSES STR
P. A. Milner, Liberal, Victoria, moved an amendment to the resolution, stating there was no need to hurry the legislation to the Dominion government. He moved an amendment to the resolution.

Hugh J. Montgomery, Liberal, Waskesville, said that he had not seen the story in the press and desired time to study it. He moved an amendment to the resolution.

A. M. Matheson, U.F.A. member, Calgary, and G. E. Crankshaw, Independent, Rocky Mountain, also moved amendments to the resolution.

TRADE WILL CO-OPERATE

"No doubt the grain trade will co-operate in every way to assist the government in the emergency," S. H. Roe, manager of the N. Bawlf Grain Co., Ltd., expressed

himself as generally in favor of a government board, in view of the present stagnant condition of the market and the fact that the government was already involved to a large extent in the market.

He added, however, that it was difficult at the present time to give a definite opinion as it was impossible to say how the board would operate. If it took over full control of marketing, the present operators would be placed in the position of warehousemen.

Other grain men in the city did not wish to comment at this early stage but it was understood they did not look with disfavor on the proposal.

Operate On Cash Buying Basis

If the proposed Canada Wheat Board is established, it will have to operate on a cash basis buying direct from the farmer and thus eliminating the necessity of the Winnipeg Grain Exchange, declared Hon. F. S. Grisdale, minister of agriculture, in commenting on the sit-

The announcement is assuredly most welcome to the many grain growers of Alberta," he said. "I am sure I look upon it with favor."

The Minister recalled that operation of the exchange had been given by Sir Arthur Hall, noted British grain authority, why British millers preferred to buy from Australia rather than Canada as the exchange would tend toward a greater price fluctuation.

Establishment of the Wheat Board, declared the Minister, would tend to stabilize prices, even though it did not do much in the way of raising them.

The Minister has not yet received any details regarding the Board or the legislation proposed to set it up, other than already has appeared in the press.

THE INQUIRING REPORTER

Here are the replies:

H. GRANT, K.C., legal advisor

the Arria Motor Association, Northern Branch: "It would be an imposition on motorists. They are taxed sufficiently at present. The introduction of this scheme might result in a further attempt to determine the right of the province to impose or authorize cities to impose a gasoline tax. It is my opinion, that generally speaking, the gasoline tax as presently imposed is ultra-vires. While it is intra vires as regards a purchaser who imports for his own use, it is ultra vires in so far as it compels retailers to pay the tax to a collector before he disposes of the gasoline and has

received ymeest from the actual purchaser for use." *

ARL BERG, secretary of the Alberta Federation of Labor: "I am opposed to any further increase in the gasoline tax, and I am certainly opposed to the granting to cities the power to collect such a tax. This would establish a very dangerous precedent. If given to the cities it would naturally follow that every town, village and hamlet would seek this means of raising revenue. The provincial government should return a substantial amount of the tax collected through this to

D PARSONS, Labor leader: "They are just like a lot of drowning men grasping at straws. The imposition of a half cent tax by cities on gasoline will not solve the present economic situation."

EDWARD ROY, salesman: "Governments are like bandits in their search for money. They find the money lies and then endeavor to exact as much as the traffic will bear. Any further taxation on motorists through the gasoline tax will mean a loss, instead of increased revenue to the provincial cash box. Mining is

lexies will be followed by wholesale storing of cars by operators now at the limit of their resources to keep their motor cars running.

ACT WORKING IS SLOWED UP

Failure of farmers to list the major amount of their indebtedness with the official receivers is materially slowing up the work of the Farmers' Creditors' Arrangement Act, was stated by H. Allison, registrar, yesterday.

Another factor contributing to delinquency in dealing with cases is the failure of creditors to file with the state receivers a verified statement of account owing by the applicant, he said.

Minister Comments on Subject in Legislature Friday

He was speaking when asked to

The Minister on Friday stated that reports received indicated that weights at packing plants were frequently less than those the same livestock received at stockyards.

He cited one case of a well known farmer in the Edmonton district, who has an accurate scale at his farm. Certain livestock was weighed there. It was then weighed at

The Minister pointed out that his differences in the legislature to short nights had not been directed at stockyards, but to those packing plants of which reports had been received. He had made no investi-

**Sales Up
During January**

Land sales and rent collections showed an increase for January and February of this year as compared to the corresponding two-month period in 1931, it was reported Friday by John Bateman, head of the city land department.

Land sales totaled \$3,697, while for the same two months last year the figure was \$3,383. Corresponding figures for rent collections were

For February land sales were \$372, while for February, 1934, the sale was \$2,063. An amount of \$8,812 was collected in fees last month as compared to \$7,950.36 for

FASCIST EGO IN CANADA DRAWS IRE

Italy's Consul General is
Taken to Task in Com-
mune at Ottawa

By THOM WATSON
Exclusive to Edmonton Bulletin
OTTAWA, March 1.—The Italian consul-general at Ottawa, Italy, was taken to task in the House of Commons Thursday for announcing in his Italian press communiqué that he was a member of the Italian Fascist party.

Humphrey Mitchell (Labor, East Hamilton) protested in the Commons the fact of any representative of another country to advocate a foreign government in Canada.

"I can safely say," Mitchell reported, "as the Canadian citizens of Italian origin, that to them it represents the great task of explaining to their fellow citizens the real meaning of the Fascist of Mussolini so that it will be much easier for the Canadian people to adapt themselves gradually to the new economic and political system which is being introduced."

The prime minister was not in the House when the matter was discussed, but Sir George Heyes who was leading at the time, pointed out that the matter would be considered at a later date.

FORMER COMPLAINTS
This is not the first time a foreign consul general has been taken to task in the House of Commons.

San Juan, New Mexico, 1915, Montreal, 1916, and a year ago against the German consul-general in Ottawa, 1917, for his activities in the German propaganda campaign in Canada.

New Jubilee Stamps
LONDON, March 1.—The special series of postage stamps to commemorate the King's silver jubilee, halfpenny, penny, three halfpenny and two pence, halfpenny, will be sold at all post offices in the United Kingdom for about two months.

Von Papen On Way Out Says Report

By THOM WATSON
Exclusive to Edmonton Bulletin

FRANZ VON PAPPEN, former German ambassador to Canada, is reported to be leaving Ottawa for Berlin.

BERLIN, March 1.—Former German ambassador to Canada, Franz von Papen, is reported to be leaving Ottawa for Berlin.

**JOVIAL HOUSE
SPENDS FREELY**

OTTAWA, March 1.—In two hours last night the House of Commons authorized Hon. Hugh Stewart, minister of public works, to spend \$250,000 on public buildings.

**Britain Knights
Saar Commissioner**

LONDON, March 1.—Col. Geoffrey D. Knox, president of the League of Nations Saar governing commission, until Thursday, has been knighted for his services.

VIENNA QUELLS CO-ED NAZIS

By THOM WATSON
Exclusive to Edmonton Bulletin

VIENNA, March 1.—Three hundred Vienna students, many of them girls, faced permanent banishment from all Austria's institutions of higher learning last night as the result of an unprovoked celebration of the Nazi's official return to Germany.

The 300 were arrested and hurried off to jail when police, swarming from all directions, charged the demonstrators with insulting the government and punishing political demonstrations with imprisonment and expulsion, to stage the Nazi's official return to Germany.

**Saar Prisoners
Heil Hitler In
New Amnesty**

BERLIN, March 1.—Adolf Hitler, according to "The Love the nation holds for the Saar," last night issued amnesty to all Saarlanders serving prison sentences of one year or less in the Saar.

Municipality In Suit Over Ship Crash Sinking

By THOM WATSON
Exclusive to Edmonton Bulletin

VANCOUVER, March 1.—A writ claiming \$30,000 damages was issued in Admiralty Court Thursday against the Canadian Pacific Steamship Company's 88, Princess Alice on behalf of the corporation of West Vancouver.

The claim is a result of the collision between the Princess Alice and West Vancouver Ferry No. 3 on February 4 outside the First Narrows of Vancouver harbor when Mr. W. E. Burritt was down with the ferry and was drowned.

The woman's husband has already started suit for damages against the corporation of West Vancouver.

MANITOBA HAS DEBT CANCELLING FARM SCHEME

By THOM WATSON
Exclusive to Edmonton Bulletin

WINNIPEG, March 1.—A suggestion that all principal and arrears in debt exceeding \$10 an acre on cultivated land be cancelled was before the agricultural committee of the Manitoba legislature yesterday.

In a brief submitted to the committee, the Manitoba farm organization expressed the need for refunding of public debt at lower interest rates as a condition for a moratorium for one year should be granted on farmers' debts in the past six years.

Calling Clergyman 'Half- Baked' Just 'Not-Done'

By THOM WATSON
Exclusive to Edmonton Bulletin

OTTAWA, March 1.—A considerable argument developed Thursday in the House of Commons over whether George H. Spotton, Huron North Conservative, had called John I. Brown, Liberal, a "half-baked" clergyman.

The argument arose during discussion of the Farm Loans bill when Mr. Brown interrupted Mr. Spotton, who retorted: "When the pastor in charge of the church in my home town says that I am a half-baked clergyman, I have always found that many half-baked clergymen are good listeners."

Mr. Brown demanded the removal of the words, but Mr. Spotton insisted the demand by saying: "I neither said that the Rev. Mr. Brown was a clergyman nor that he was half-baked. But I did say that I have known half-baked clergymen who were good speakers but poor listeners."

German Stamps Only
BERLIN, March 1.—German postage stamps will be permitted in the Saar territory after March when special stamps on reform of the territory to Germany will be used.

Queen Victoria of England signed the greatest number of years of any Great Britain's rulers.

BRUISES LEAD TO FOUL PLAY DEATH THEORY

By THOM WATSON
Exclusive to Edmonton Bulletin

PINEBLUFF, N.C., March 1.—Discovery of a human skull, mysteriously buried on the body of a granite block, has led to a theory of foul play in the death of a young woman.

The physician also told a coroner's jury that "certain conditions pointing out the body condition found capable of producing death," but said they had not determined the reason for the bruises and their exacting wound conditions.

She was found lying in her bed in her garage Wednesday.

Physicians can catch at points of fish and store them in their homes for use when necessary.
